---

#### **Kromekote Metallics C1S**

---

Caliper		12 PT
Basis Weight	lbs/3300 sq ft	169
Products		Gold Metallic, Silver Metallic, Frost Pearl

---

### PRODUCT ATTRIBUTES:

- Kromekote Foils are manufactured with a one mill polyester film laminated to Kromekote cast surface resulting in a very flat, smooth and highly reflective foil surface.
- Kromekote Colors and Metallics are manufactured with color applied to the Kromekote cast surface resulting in very smooth and glossy color surfaces.
- Non-color foil side is matte coated and recommended for four color printing.

- High stiffness and exceptional surface make them ideal for all premium quality cover, poster and packaging applications.
- Complies with Toy Safety regulations for archival quality: ASTM F963-07e, Hasbro SRS-12, REACH Regulations, CONEG and ANSI Z39.48.

### PRINTING AND CONVERSION:

- Recommended for offset lithography, thermographic, letterpress and screen print processes.
- Suitable for embossing, scoring, die cutting, varnishing, and foil stamping.

### APPLICATIONS:

- Book covers/book jackets, business cards, greeting cards, packaging, postcards, media kits, promotional inserts, hang tags, pocket folders and sell sheets.
