

PRODUCT FEATURES

Kromekoteplus Litho is engineered for superior performance on offset presses and label line converting operations. With a new clean blue-white shade, its cast coated surface provides a mirror-smooth gloss finish for the highest quality image reproduction and maximum point-of-purchase impact.

- Pure blue-white shade for true color reproduction and maximum point-of-purchase impact.
- High gloss
- Mirror-smooth cast coated surface
- High brightness
- Improved fiber sizing for superior resistance to glue staining and edge wicking
- Optimized fiber selection provides excellent dimensional stability
- Balanced coating design provides excellent ink receptivity and improved edge chipping and dusting resistance
- Alkaline chemistry for archival quality

END-USES

- glue-applied labels
- envelopes
- specialty packaging
- box laminations
- book jackets
