

KROMEKOTE C1S

PRODUCT FEATURES

- Alkaline chemistry for archival quality
- A true “cast coated” paper triple coated for superior smoothness, gloss and minimal dot gain.
- Its brighter blue-white shade will enhance your printed piece providing crisp, clear images for maximum contrast.
- Exceptional high-speed runnability and quick drying time saves money and production time on press.
- The uncast side of C1S features a premium matte coated surface for full color reproduction.
- Improved stiffness provides a more rigid feel to the sheet.
- Kromekote C1S can be printed utilizing the latest printing processes (i.e. – high resolution, direct-to-plate, Stochastic, waterless, etc.) allowing full application of image reproduction technology.
- New improved coating allows for flexibility and limits cracking and dusting.
- Excellent runnability through cutting, scoring and finishing.
- Also available in Cast Coated Two Side. (see Kromekote C2S Cover section)
- Also available as recycled. (see Kromekote C1S Recycled section)
- Also available in Tear-Resistant. (see Kromekote Tuffkote C2S section)
- Stocked in the widest variety of basis weights and sizes.
- Kromekote C1S is suited for a wide range of projects including:

- Annual Reports
- Art/Photo Prints
- Book Covers and Book Jackets
- Brochures
- Business Cards
- Calendars
- Greeting Cards
- Hang Tags
- Promotional Inserts
- Media Kits
- Packaging
- Pocket Folders/Portfolios
- Posters
- Postcards
- Sell Sheets
- Specialty Tickets
